Republic of Maharlika

MAHARLIKA POLICE DEPARTMENT

CYBER CRIMES UNIT

INTELLIGENCE REPORT No. CCU-IR-2026-087

Date: 21 September 2026. Source evaluation: B2.

SUBJECT: Online contact network linked to the shooting at Maharlika National High School on 14 September 2026.

1. SUMMARY. CCU examined the device of the subject, J. M. Dela Peña, 15 (item E-019, DFER-R14-2026-0188). First contact with a handler was made on the game platform Roblox on 20 July 2026. The conversation was moved to Facebook Messenger on 27 July 2026 and to a Discord server on 3 August 2026. All findings below are assessed and for validation.

SYNTHETIC: BARGHEST demo data. Fictional.

2. ACCOUNTS ATTRIBUTED TO THE SUBJECT, J. M. DELA PEÑA.

Platform	Handle or display name	Platform ID
Roblox	wckyy_09 (display name Wacky)	4417820931
Facebook Messenger	Joaquin DP	100071122334455
Discord	hollow.ix	912338817221345280
TikTok	@hollow.ix	7219944830021

3. RELATED PROFILE. A Facebook profile, Rowena DP (100045566778899), is assessed as belonging to Sgt. Rowena Dela Peña, aunt of the subject. On 2 September 2026 the profile posted a photograph of a locker.

4. HANDLER. One unidentified handler is assessed to operate three aliases: Vesper_Krael (Discord, user 884217700112233), @vkrael (Telegram, user 6613 2211 09) and VesperK (Roblox, user 3901177205). The handler has not been identified as any named person.

5. SURFACES. SIDEWINDER RP (Roblox group 33871204) was the first-contact surface. VOIDHOUSE (Discord server 1183322990011223344; channels #gates, #void-logs, #proof; 44 members) is assessed as a possible Cell 09 of the network known as ASHFALL, for validation. vkrael_drops (Telegram channel -1001882211009; 212 subscribers) is owned by @vkrael.

6. OTHER EVENTS. On 15 August 2026 a document described as a manifesto was posted in #gates, and the subject's Discord account reacted to it. On 5 September 2026 the handler assigned the subject a task described as "final statement" (assessed). Two earlier contacts in a neighbouring province by the same aliases are reported, for validation.
